

\* 1 mL of Dako IHC mouse/rabbit envision kit can work for 3 slides with 3 medium sections per slide (~100 µl per section).

\*\* 1 mL of DAB can work for 1 slide with up to 3 medium sections / slide (300-400 µl/section).

\*\*\* Billed volume is 0.5 mL dilution buffer / slide.

\*\*\*\* The cost we charge is based on marking 3 sections / slide.

\*\*\*\*\* Please see *Billing Option Table for IHC Reagents* on Page 3 for a detailed breakdown of billing options.

## Billing Option Table for IHC Reagents

The options below are customized to meet various unique protocols and needs. Please select the appropriate billing option in the IHC staining user logs.

<b>OPTION A:</b> all steps (deparaffinization and reparaffinization, DAKO IHC mouse/rabbit envision kit, 3% hydrogen peroxide <b>in methanol</b> , DAB stain, delimiting pen, antibody dilution buffer)	<b>\$14.80 / slide</b> (1.30 + 6.50 + 2.50 + 2.00 + 1.75 + 0.75)
<b>OPTION B:</b> all steps (deparaffinization and reparaffinization, DAKO IHC mouse/rabbit envision kit, 3% hydrogen peroxide in <b>PBS (user provided)</b> , DAB stain, delimiting pen, antibody dilution buffer)	<b>\$13.30 / slide</b> (1.30 + 6.50 + 1.00 + 2.00 + 1.75 + 0.75)
<b>OPTION C:</b> all steps (deparaffinization and reparaffinization, DAKO IHC mouse/rabbit envision kit, 3% hydrogen peroxide <b>in methanol</b> , DAB stain, delimiting pen, – <b>no antibody dilution buffer</b> )	<b>\$14.05 / slide</b> (1.30 + 6.50 + 2.50 + 2.00 + 1.75)
<b>OPTION D:</b> all steps (deparaffinization and reparaffinization, DAKO IHC mouse/rabbit envision kit, 3% hydrogen peroxide in <b>PBS (user provided)</b> , delimiting pen, DAB stain – <b>no antibody dilution buffer</b> )	<b>\$12.55 / slide</b> (1.30 + 6.50 + 1.00 + 2.00 + 1.75)
<b>OPTION E:</b> partial steps (deparaffinization and reparaffinization, 3% hydrogen peroxide <b>in methanol</b> , delimiting pen, antibody dilution buffer – <b>no secondary antibody or DAB stain</b> )	<b>\$4.80 / slide</b> (1.30 + 1.00 + 1.75 + 0.75)
<b>OPTION F:</b> partial steps deparaffinization and reparaffinization only	<b>\$1.30 / slide</b>
<b>OPTION G:</b> partial steps (deparaffinization and reparaffinization, delimiting pen)	<b>\$3.05 / slide</b> (1.30 + 1.75)
<b>OPTION H:</b> deparaffinization and reparaffinization, 3% hydrogen peroxide in methanol, DAB stain, delimiting pen, antibody dilution buffer – <b>no secondary antibody</b>	<b>\$8.30 / slide</b> (1.30 + 2.50 + 2.00 + 1.75 + 0.75)
<b>OPTION I:</b> partial steps (deparaffinization and reparaffinization, IHC mouse/rabbit envision kit, DAB stain, antibody dilution buffer)	<b>\$10.55 / slide</b> (1.30 + 6.50 + 2.00 + 0.75)
<b>OPTION J:</b> partial steps (deparaffinization only, delimiting pen, antibody dilution buffer, coverslipping – <b>no 3% hydrogen peroxide in methanol or secondary antibody or DAB stain</b> )	<b>\$3.20 / slide</b> (0.50 + 1.75 + 0.75 + 0.20)

Individual reagents are also available to purchase by volume. Please inquire.
